FOR WHOSE PROFIT NOW?

The following official announcement reaches us from Washington:

General Terrell, the third Assistant Postmaster General, in order to remove the dissatisfaction expressed against the present postage stamps, proposes to change them; and, with this view, he has directed the bank no e company which furnishes them to prepare the designs for new issues. The heads of Washington, Jackson, Franklin, Lincoln, and Jefferson are to be restored, in place of the present designs—to be represented as profile busts; each to represent the various denominations. The stamps are to be larger than those now in use, and oblong. Instead of one hundred and fifty being printed on a sheet, there will be only one hundred. The former color, red, will also be restored. A month or two may elapse before the new stamps will be ready.

Just what is the "dissatisfaction expressed against the present postage stamps" we are ignorant of, except that the gum on them possesses little or no adhesive qualities. In this respect, they merit unbounded dissatisfaction; but a few dollars expended in mucilage would remove it all. Instead thereof, stamps of an entirely new design, involving a large outlay of money, are to be ordered, it, indeed, the order for them has not been already issued. To the ordinary mind, the whole affair has a suspicious appearance, to wit: that of a job for certain engravers. In 1861, when the war broke out, it chanced that there were in the hands of Southern postmasters a few thousand dollars' worth of postage stamps, whereupon a Radical administration ordered a new issue, under the pretence of preventing the government from being swindled, but really to give a job to somebody. This new issue, it will be remembered, was passing homely. When the war had ended, it was proposed to get up an entirely new set of stamps, why or wherefore no one could divine, except on the theory that some one was to make money thereby.—The new issue has but recently been given to the public. The various denominations of stamps, though not intrinsically attractive, have the merit of differing in design from those of any other nation. But, lo! they have been in use barely three months when the announcement quoted above is made. Who is to be the gainer now?—Perhaps General Terrell, third Assistant Postmaster General, will tell us; more likely he will not. To the public it is a matter of small consequence what designs are adopted for postage stamps; but it is interested in knowing why a change is to be made before it has become familiar with the latest issue; for whose special benefit the new issue has been ordered; and why the public money of a debt burdened nation is to be thus ruthlessly squandered? Will Mr. Creswell explain this matter?—*N. Y. World.*

From the American Farmer.

WORK FOR SEPTEMBER.

WHEAT SOWING.

To the grain grower this month is of special importance in the preparation for wheat sowing and getting the seed safely committed to the ground. It should be known generally that in some of the best cultivated sections of Maryland, good farmers practice seeding early in this month. The red wheats have been sown much of late years to the general exclusion of the white, and seem to admit of being sown earlier than the latter.

The arguments in favor of early seeding, which we have constantly urged, have lost none of their force, and we would make for this latitude the 10 h of September, and the 15th of October the limits of seed time, getting through with it as early as practicable after the first named.

Manures.—If stables and barn-yard manures are to be applied, put them as early as practicable on the land after the principal plowing, provided they are not so coarse as to interfere with the seeding operations. In that case apply them immediately after seeding, broadcast from the cart.

If commercial fertilizers are to be used, apply on land of fair quality what may be equal to two hundred pounds of best Peruvian guano to the acre. The articles offered for sale in the market are of various quality, many of them very good. The combinations of Peruvian and phosphatic guano, or their equivalents, are the main ingredients, and furnish usually the specific elements needed.

Putting in the Seed.—We recommend, without qualification, the use of the drill with guano attachment, for putting in seed. There is no question, after many years experience, of the great economy of seed and labor in the use of this valuable implement. The insurance against winter killing and the general vigor of the growth afford a security also as to the success of the crop, which is of great importance. If the drill be not used, the gang plow is the best implement; cover with a light furrow. On corn and tobacco land seed without breaking the ground first, using any implement which will cover it sufficiently. If the corn-ground be grassy, a sharp-tooth drag harrow run in the direction and immediately back in its own track, will comb off the grass effectually.

Quantity of Seed to the Acre.—The common practice varies materially, from a bushel and a peck to two bushels broadcast, and at least a peck less for drilling.

Preparation of Seed.—It is advisable always to guard against smut by some preparation of the seed that will cleanse it thoroughly. The simplest that is also effectual, is to wash in brine, pouring the grain slowly in, skimming off carefully everything that floats, after draining well, sprinkle with fresh slacked lime or dry plaster.

Let it be borne in mind, as to this important crop that thorough preparation and ample manuring will, on suitable soil, almost insure success in any season; and that without these, scarcely any crop is so uncertain.

A CONVICT IN LUCK.

On a visit to the Penitentiary, we heard the story of a convict, which is calculated to excite some interest. Her name in Isaac Smitomer.

He was born in Salem, New Jersey, in 1811, and is in his 58th year. Seven years years ago he came to Maryland, and settled on Round Top, in Queen Anne's county, 2½ miles from Chestertown. Here he farmed and dealt in stock, and purchased two cows from a negro for $60, 1-2 of which he was arrested, tried and convicted of receiving stolen property, the cows having been stolen from a neighbor in May, 1867, he was sent to the Penitentiary for five years.

He says "he proved in court that he had bought the cattle, but could not prove where he had brought them from, as the negro ran away. He has been working lightly about the prison since his incarceration, being weak and partially paralyzed. On last Monday week he was waited upon by his son, and a lawyer of Chestertown, who informed him that, by the death of a relative in Ohio, he had been left heir to property worth $80,000. The old man was very glad, and is taking steps at once to prove his innocence and secure his pardon, so that he may go and take possession. The property was left him by his own relative in Ohio, Mrs. Sarah Patterson, his father's sister, and Smitomer is her nearest relative. The old man seems to be quiet and inoffensive, and, as circumstances look favorably for him, an effort will be made for his pardon.—*Commercial Advertiser.*

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with Bowell's Patent Double Cog-wheels, and the Patent Wire, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Ballows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $3 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

POPULAR EDUCATION—ITS PROSPECTS, &C.

The education of the children and youth of the State is a matter of the highest public concern. This is so in all governments, but it is especially so in ours; for popular intelligence, sustained by popular virtue, is the only sure and certain basis on which it could rest and be made enduring. Republics depend absolutely upon the *virtue* and *intelligence* of the people who compose them for their existence and perpetuity; if these requisites are wanting, such governments are popular, organized mobs, which sooner or later, result in general anarchy and eventuate in a despotism. This is so manifestly so, that it is regarded as a great political maxim—underlying and indispensable to Republican forms of government. The great danger threatening the future of the American Union is, that the people are running crazy with the idea that no man is free, or can enjoy free government, unless he is invested with political power, without regard to his intelligence or his character for virtue. Every man must be a legislator, else he is not free. This is a fatal idea, and one that may prove so to this great Republic. The ignorance of most men is their misfortune; it is the crime of a man if he is vicious. In either case, he is not fit to legislate for a country; but this is not the policy of the times. Ignorance is at a premium, and vice and immorality sit in our high places. This cannot be successfully contradicted.

In the whole State, that large portion of our population who were lately slaves, are exceedingly ignorant, especially in matters of politics. This is not their crime, but their misfortune. They are, therefore, unfit to legislate, yet they are, at once, without a day's preparation, invested with every political privilege and power as electors and office-holders, and contribute to mould and wield the policy of a great nation, whose hopes for perpetuity are based upon the intelligence, as well as the virtue, of a people. If this is so in reference to the black man, the same may be said of the Chinaman. The indications are that this country will be overrun with the Chinese; at all events, that these people will, at no distant day, become a controlling power in the politics of the country. These people are notorious for their extreme ignorance and deplorable lack of all virtue. Foreigners from all lands come here, and, without regard to their characters, they become citizens and electors, and hence legislators, moulders and directors of the destiny of this country. Who can hope for the perpetuity of such a government, subject to such rulers? Take the bad men and the ignorant, whom they will generally manage to control, and it is easy to see that the destiny of the country is fixed; its sun will set in a sea of bloody anarchy, unless something can be done to expedite the enlightenment and education of the popular mind; this must keep pace with the extension of privilege. The people must be educated, and rapidly, no matter at what cost; this is, indeed, a matter of the first concern to every man who wishes to see the country live and enjoy peace and good government.

Well, how is the matter of popular education in this State now? We are sorry to have to know that there is no such thing among us as popular education; there is, so far as we know, but one school in the State sustained by public authority, and that is a shameful mockery and burlesque upon the name of education. The condition of the educational interest of the masses of the people of this State is deplorable indeed; it is so much so as to be a matter of remark among intelligent men among us, and such as visit the State on matters of business and observation. Since the late war the matter of popular education has been almost entirely neglected, and the result is, the children and youths of the State, where parents are too poor to educate them, (and this may be said of the great bulk of them,) are growing up in ignorance and approaching intellectual darkness. This is a sad and melancholy truth.

It is one of the principal evils growing out of the results of the late war, and what makes it worse is, that there is at present no reasonable hope of remedying so great and far-reaching an evil. Unfortunately, alas! how unfortunately, for our helpless people! the State government has, accidentally, fallen into the hands of men, for the greatest part, universally ignorant and corrupt. They are not only destitute of virtue, but they are alike destitute of intelligent hopes or honorable ambition; they seek only to satisfy their animal appetites and justify vulgar and illiterate vanity. This is the *sum* of their aspirations. They care nothing for the people, white or black, except to make dupes of and despoil the ignorant and humiliate and plunder the intelligent and virtuous.

How do the facts stand? The Radical *regime* has had full sway for over eighteen months. What has been done in that time for popular education? Nothing, worse than nothing; there are no public schools, not one in the State, except the burlesque and laughing stock at Chapel Hill; and what is worse, the prospect is deplorable and pitiable. At the head of the educational interests of the State is placed a stranger, yea, a "*carpet bagger*" of the worst type, a man whom the people don't know and cannot confide in and whose very name is the synonym of contempt and scorn; he does not amount to a laughing stock; he is emphatically a leper in the body politic. The people shun and despise him; they long for the arrival of the day when he shall return to his obscure home, in the neighborhood of Buzzard's Bay. Even the native Radicals despise him. Such a man is the Superintendent of Public Education! What has he done, for education? Can any body tell? What does he care for education? Nothing. He came to make money out of the hateful and conquered rebels! Why has not this Superintendent from Buzzard Bay, and the "loil" Legislature started some sort of a system of schools for the poor, ignorant and helpless, white and black! These men have not even made a school for the poor negroes whom they have cheated, deceived and outraged. Will they say they had no money? The reply is, they found millions on millions of money to build Railroads, or rather, to build up gigantic "Railroad Rings." Have they not? Everybody knows they have. Yes, millions on millions of dollars have these men spent to build up "The Ring," but not a dollar to educate the poor and helpless! They pretended to organize the State University. What a shameful illustration of there venality! They filled all the offices of the University so-called, with obscure men, unknown to the people of the State and for the most part, utterly incapable to discharge the duties of there several offices, if occasion should require an exercise of them. Besides and worse still, these officers are servile Radical tools, loath some to the people, because among other things, they could consent to barter right and respectability for a mess of pottage; for a *little place*. The authorities did not and do not want to build up the University, because they send these odious men there. The logical result is, no body goes there, nor will anyboyd ever go there.—Neither the poor nor the rich, nor the white nor the black, will go there. Chapel Hill, once the proud seat of learning and philosophy, is now, alas! how soon! a place of educational desolation and sad memories! The *offices* are filled; the *salaries* are paid; and *that* is all. We put this question: Would a man of any spirit and fit to fill such office,—a man of any sense of shame and self-respect, fill these offices under the circumstances? The University offices were filled first, and why? Because these offices were high offices and *paid* and served the wishes of special favorites. But the University was not needed until the boys had learned the elementary branches of education, and these are to be learned in the Common Schools. Where are the Common Schools? Why do they come last, if they come at all? The explanation is easy: The Common Schools involve labor and care, and don't pay *fast enough* and afford sufficient means of peculation and serve the interests of the "Ring." The organization of the Common Schools must be delayed in the interests of the Superintendent and the Governor, and the "Ring." Let us see what interest the "Ring" had in the matter: Section three of the School Act, which Mr. Superintendent manipulated through the *virtuous* Legislature, provides that, "the Board of Education shall prescribe the course of studies to be pursued, *text books* and *other school teaching material* to be used in the *public Schools of the State*." It is said the Legislature struck this provision *out of* the Act by a large vote; but when the Act was ratified and enrolled, it turned out the provision *was in*. (Who put it in, and for what?) Well, the Board of Education met a day or two ago, to prescribe school books for a system of Schools to be set a going, none can tell when. Quite a number of publishing houses were represented, offering to furnish standard books, on terms of the greatest liberality. It was manifestly well to enlist as many of these publishing houses as possible in the interest of a School System. But, the Board sat a day or two, and heard propositions of the proprietors. Finally, what happened? This *sapient* Board prescribed a list of Books to be used in all the Public Schools of the State, nearly the whole of which are published by *A. S. Barnes & Co! Mr. Superintendent Ashley favored these books!* The books for the most part are such as the people, and even educated men, never heard of. Such, for example, as Monteith's History of the United States. How much did this order cost Messrs. A. S. Barnes & Co? Why were not Mitchell's or Cornell's Geographies prescribed, or Webster's Spelling Books, or Bingham's or York's Grammars, or McGuffey's Readers? The reason is plain; the *motive* nearly as plain! Messrs. A. S. Barnes & Co. do not publish these books, and the publishers of them are not, or were not, in the "Ring!" Can the people see? We repeat—how much did A. S. Barnes & Co. pay for this order? Where was the money put so that the interested parties could get it? We remember hearing that a Radical member of the Legislature said, this thing would turn out just as it has.—He said, so we learn, that "old Cape Cod," as he called the Superintendent, could sell out to some publishing House for a round sum: so we go. How long will this people submit to such shameful and disgraceful and outrageous practice! Is there no relief? Let the *people* look to their educational interests. Let the people look to *all* their interests. The State officers are all looking after *them!*

Five citizens of Chickasaw County, Mississippi, are under arrest for serenading a Radical office-holder with a tin pan.

Judge Jeremiah S. Black, of Pennsylvania, has brought suit in the sum of $25,000 against the Louisville and Nashville Railroad Company, for injuries received some time during the early part of the summer.

GOOD IF TRUE.

We heard it on the streets of Hillsboro' that the Governor's brother-in-law, Mr. Eli McRary, who had recently made a visit to Raleigh, reported that the Governor intended to break up the Ku Klux and dissolve the Leagues.

This is a consummation devoutly to be wished. The Governor organized the Leagues in North Carolina; he is now, or was very recently, the Grand President, while *little* Charley Horner, then his Private Secretary, was Grand Secretary of the Leagues.

It is easier to destroy a government than to make or build one. Not so with the Leagues, parties and factions. It is easier to form and organize, than to destroy them. No one is more convinced of this fact than the Governor; he organized, defended and sustained the secession party of North Carolina. In 1860 he tried to dissolve the party. His efforts were unsuccessful; he could neither guide or control the storm which he had raised. So we fear it will be with the Leagues that the Governor organized, but he can't dissolve them, they will not obey. The deluded followers of the Governor have not yet caught their mule or come up with their 40 acres.

When a promise is made to an African he is importunate until the promise is fulfilled. We heard Judge Dick discourse to the negroes of Randolph upon the importance of every man having a home. Such orators as Billy Henderson did not hesitate to promise 40 acres and a mule. Judge Reade has judicially plead for the 40 acres from "turret to foundation stone." We tell the Governor it will take work to dissolve the leagues until coffee shall receive the 40 acres and the promised mule.

The blood of Brily, Nethercutt and the whole Pescue family call on Ku Klux for vengeance, the blood of Colgrove and Shepherd call on the secret oath bound leagues for vengeance. Blood will flow and barns blaze at midnight, before these two secret oath bound societies will cease their murderous and bloody work. The civil arm of the government seems too weak to put down either the Ku Klux or the leagues.—The Governor and the Radical Judges are pursuing the Ku Klux, and the Ku Klux are pursuing the rape and murder committing leaguers.

God speed the Governor in dissolving both. His first duty should be to dissolve the leagues, and thereby win the credit of having "killed as well as made them alive."

The following exhibits the first *voluntary* renunciation of honors, military or civil, that we remember to have occurred during our present State administration. There are several who hold two or more positions of honor and profit—if indeed there be really any *honor* in holding any position in such a mess. This is a hopeful sign, and we hope the movement will soon be followed by others holding two, three or four offices in the State:

To His Excellency, W. W. Holden, Gov. N. C., and Commander-in-Chief:

I have the honor, sir, to hereby tender you my resignation as Colonel of the militia for Franklin County. It gives me pleasure to say that during the time for which I have had the honor to hold the office, the disposition on the part of the citizens of Franklin County to observe the law, and preserve order, has prevented the necessity of my services; and it is gratifying to me to be able to testify to the general good conduct of the citizens of said County.—Under a misapprehension of the law, and influenced by circumstances I may have erred, and transcended the limits of my authority; if so, I regret it—but am comforted by the reflection, that I have never intended to do other than my duty. In my successor (who ever he may be) I earnestly trust that the good people of my County may recognize one who will faithfully perform the duties of the office, paying proper respect to the feelings and rights of all classes, without regard to race or color. Hoping that the subject matter of this communication will receive your immediate attention, and that you will be pleased to accept my resignation of the office thus offered, I have honor to be sir,

Very respectfully,
Your obedient servant,
JAS. T. HARRIS.

STATE OF NORTH CAROLINA,
EXECUTIVE DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
Raleigh, N. C., Sept. 10, 1869.

Mr. J. T. Harris, Raleigh, N. C.:

DEAR SIR:—Your letter tendering your resignation as Colonel of the 40th Regiment, N. C. M., is received.

Regretting that you should deem this step necessary, I am directed by Governor Holden, Commander-in-Chief, to say that your resignation is accepted.

Very respectfully,
Your obt. servt.,
A. W. FISHER,
Adjutant General.

LUCIEN BONAPARTE'S DEFENCE OF HIS MARRIAGE.—The *Goulots* publishes, apropos of the marriage of Prince Pierre Bonaparte with the daughter of a brass founder, a curious letter from Prince Lucien Bonaparte, his father, on being directed by Napoleon I. to divorce his wife. The letter is addressed to Mdme. Letitia Bonaparte, and is dated May 19, 1810. Lucien says "he married because he had a right to do so, and before he to whose elevation he chiefly contributed became emperor. It is ridiculous and improper," he proceeds, "for a statesman, minister and an ambassador to be treated like a street boy; both my second and first wife have deserved by their virtue not to have their misfortune cast in their teeth. Jerome might have been required to divorce his wife, for he was a minor when he married. The emperor might also, so long as he was childless, make a sacrifice for his people by dissolving his marriage; but I have seven children and an excellent wife, and therefore have no reason to do anything of the kind."

Col. Green Clay, of Bolivar county, Miss., writes a letter to the Grenada *Sentinel*, withdrawing from the race as a candidate for Congress in the Second District.

One of the French deputies is said to have gone raving mad. He was found alone in a railway carriage and stark naked. When asked why he discarded his clothes he answered: "I wish my constituents to see me just as I am."

The National Executive Committee of the colored laborers and mechanics have issued a call for a convention, to be held in Washington on the first Monday in December. The call is general and no one will be excluded who bears the credentials of honesty and industry.

OLD MR. GRANT—ANOTHER INTERVIEW.—We publish, from the Cincinnati *Enquirer* of yesterday, an interview between an enterprising newspaper reporter and Father Grant. It contains many items of interest. The amiable old gentleman is delightfully garrulous. Doubtless he desires to show the world that the Grant can talk as well as give offices and take presents; and so he goes for the situation—local, personal, political, abstracts, and æsthetical—with a perfect looseness. We are tempted to contribute to this very full and complete sketch an incident which occurred in Covington. A gentleman—a stranger, of course—met old Jesse in the street, and, desiring to break a ten dollar bill, stopped him and asked him to change it. Old Jesse said he thought he could do so, opened his pocket book and began to fumble over its contents. As he did so he cast a side glance at the stranger and muttered, in a quick, jerky, guttural tone of voice, "Do you know who I am, sir?"

"No," replied the stranger, "I do not; who are you?"

"Sir," said old Jesse, straightening himself, "I am the father of the greatest soldier who ever lived."

"Then," said the stranger "your name must be Jackson, and I thought Stonewall Jackson's father was dead."

That ended the interview.—*Louisville Courier Journal.*

THE TREASURES OF LOPEZ.—General McMahon, the American Minister to Paraguay, who has been so long with Lopez in the mountains, has now left him, his mission having expired; and the Buenos Ayres *Standard* publishes two very complimentary notes of June 24, exchanged between Lopez and McMahon on parting. McMahon proceeded from the headquarters of Lopez to Asuncion, where he was received with marked attention by the allied generals. He carried with him in bullock carts an enormous quantity of baggage, which is very suspiciously looked on by the allies. By them he is supposed to be carrying away to the United States a large amount of treasure confided to him by Lopez, who lately made a deed of gift of all his worldly goods to Mrs. Lynch, an Irish lady, by whom he has a large family and who has been at his side throughout the war, and named General McMahon trustee and guardian. The Buenos Ayres papers say that he is carrying away about 60,000 doubloons, which would be about £300,000. This may be safely put down as an exaggeration.

Mr. Harrison Ainsworth, the novelist, founded one of his stories on a curious old custom, which has recently been revived in Dunmoor, a little town in Essex, England. It was once the practice in that village to present a flitch of bacon to any married couple who could prove that not a single cross word had passed between them for a twelvemonth and a day, but of late years the ancient ceremonial has been neglected. Last month one of the former managers of Drury Lane Theatre revived the custom, and awarded two flitches, the presentation being accompanied by a *fete champetre*, a clown's tournament, a Punch and Judy show, a May pole dance, and a procession through the town. The *Pall Mall Gazette* briefly noticed the occurrence, but deprecated the revival of the practice, deeming its accompaniments anything but respectable, and remarking that many of the questions put to the claimants of the flitch were beyond even the bounds of indelicacy.

SERIOUS CHARGES AGAINST SAVANNAH MUNICIPAL OFFICERS.—The Savannah *News* says that at the last meeting of the Savannah City Council, the Mayor stated that he much regretted the absence of Alderman Waring, as a letter had been received by him from a member of the Board, containing grave charges against him, and also against a city official. He was not willing to remain two weeks longer under such an imputation, and would, therefore, read the letter—after which he would retire from the Board and leave them to act as they saw fit. He then read the letter signed by Ald. A. N. Miller, stating that in a conversation with Ald. J. J. Waring, on Thursday last, he said that Lieut. William Wray had received $9,000 for the recovery of $18,000 worth of lost city bonds, the whereabouts of which had been ferreted out by the City Treasurer. This amount had been divided equally between the Mayor, Mr. John Williamson, City Treasurer, and Lieut. William Wray. Ald. Miller said that on hearing these grave charges, he felt it his duty to communicate the same to the Mayor. The Mayor and the Treasurer pronounced the charges false, and a meeting will be held next Monday night to investigate the matter.

Some years ago a tourist visited Switzerland and while walking one day alone in a solitary district found himself confronted by a great brown bear. Escape was impossible. The tourist drew his revolver and was in the act of discharging it at the bear, when the latter cried out:—Hold! hold! Do not shoot! The matter stands thus:—I was formerly a vender of citrons. The business did not prosper. I came here and was engaged by the guide of this district to play bear in the mountains for fifty sous per day. Whenever a traveller comes through with a guide I frighten him; the bold guide drives me away and receives from the thankful traveler a handsome gratuity for the service, which he divides with me. In this way I make my living; but in the winter time when there are but few travellers, it goes very tough with me." About two years since his beardship stumbled from a precipice and met with a lamentable end.

Bay St. Louis, Miss., is recommended to the hot-bloods of New Orleans as a first-class dueling place, and the *Gazette* promises that no one will interrupt the carrying out, even unto death, the wishes of parties desiring to honorably kill each other.

GLASS SPECTACLES,
Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar forms of

A CONCAVE CONVEX ELLIPSIS,
Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses.** It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these issues, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.
J. M. ATKINSON,
Pastor of the Presbyterian Church.

EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.
Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.
W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

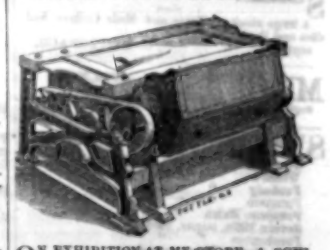
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."
The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.
Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages over other Gins, named in this advertisement, after fair trial, it will be no sale.
The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.
I am Agent for its sale and would be pleased to fill orders.

CITY AND STATE ITEMS.

SATURDAY, SEPTEMBER 11, 1869.

Mr. Theo. N. Ramsay, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

The weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, September 10th:

New Advertisements.—Another lot of Turnip Seed have turned up at J. A. Jones' Bookstore.

Gail & Ax, Snuff and Tobacco, read the advertisement.

Drugs and Medicines, Jordan and Carr, Petersburg, Va., make their usual Fall announcement; read it.

Yearby & Rogers—at the yellow front, Hargett street, offer an assortment of choice family groceries.

Auction, this Day.—J. M. Towles will hold his regular Auction to-day. See his announcement of articles to be sold.

A Timely suggestion.—Raleigh will be full of people during Fair week, and without some systematic arrangements beforehand, many may find it difficult to procure accommodations and leave sooner than they otherwise would do. The Yarborough and Exchange, and the new Guion House, which will probably be opened by the time of the Fair, together with our excellent private Boarding houses will all be full, and still hundreds will have to seek other quarters.

To remedy all inconvenience on this subject it is suggested that house-keepers in the City, willing to take boarders during the Fair, inform the Secretary, Rev. J. Brinton Smith, of the fact—the number they can accommodate, charge per day or week, place of residence &c., so that a list of the same may be prepared and placed at the Railroad Depot and at the office of the Secretary, for the information of visitors.

An early response to this notice is requested by the Secretary, that he may have the lists prepared, and be able to answer any enquiries he may receive in regard to accommodations.

Didn't like the Chances.—Dick Pecud, the painter, colored, and by the way a pretty good painter and sensible fellow, was seen coming out of the Mayor's Office, on Thursday, and swearing he "would be tried by no such d—d court."

It seems that "Capt." Bosher, of the horse marines,—we mean, of the Jones County military campaign,—having surfeited of *military* honors, doffed the brass lace and beaver, and got herself appointed by the Governor, a Justice of the Peace for the Raleigh beat, Wake County; and has sometimes held his Court in the Mayor's Office. It was in this capacity that Dick was called on to pay him his respects, for some cause to our informant unknown, and which gave rise to the expletive above noticed.

Personal.—Col. Ed. Hall, late Democratic candidate for Lieutenant Governor, was in the City yesterday.

Connubial Infelicity.—While at the Mayor's office, yesterday, we saw a colored Beatrice there, who was awaiting the arrival of her liege lord, for whom a policeman was hunting throughout the city, with an invitation of a pressing nature. His presence was desired to see if he had'nt gotten into a better humor than he was the day previous, when he got his temper up to such a pitch as to give his wife tokens of his regard more feeling than sentimental.

We did not wait to see whether the delinquent was apprehended, or how the little family affair terminated.

"We are daily in receipt of clubs of subscribers, varying from ten to twenty names each, and have nearly doubled our subscription list of five months ago."—*Standard.*

This is a good joke. Can the *Standard* name any one post office, where he sends 20 papers, save the city of Raleigh? We shall doubt it until he does so. "Every day" he receives from "ten to twenty!" and he does not even name the County from which they come. It is well known that the negroes generally can't read, and, therefore, don't take the *Standard*, or any other paper. It is well known that many of the whites who belong to the Radical party can't read; they have elected magistrates and constables, too, who can't write their names. As to the *Standard* having twenty subscribers at any post office, save Raleigh, we shall believe it when the *Standard* names the office.

Trotting Stock.—Sheriff Tim Lee, and G. W. Wynne, Esq., were invited to visit the Mayor on Friday, for an exhibition of fast trotting on the street the day before. Each confessed the fact of having fine trotting stock, and also to the exhibition of it, as charged, for which luxury His Honor required from each a ten-dollar donation, with costs, to the city treasury; which requisition was at once complied with.

Railroad Meeting in Charlotte.—We learn from the Charlotte papers that a meeting was held in that city, on Thursday, to take steps towards the building of a Railroad from Charlotte via Lancaster to Goodine's Station. Several speeches were made and resolutions were passed favoring the project.

A committee was appointed, consisting of Messrs. C. J. Fox, R. Barringer, T. H. Brem, E. A. Osborne and Gaston Paul, to confer, from time to time, with the Lancaster and Kershaw delegation, with a view to opening books and of devising the best mode of raising the subscription necessary to build the Road.

The Newbern *Times* repudiates our overtures of amnesty and refuses its sympathy in our labors of exposing the rascality of a party; because, it says, we are opposed to *all* Republicans and it is opposed to the *rascally* ones. Well, it amounts to the same thing, so we will excuse the *Times*, and wish it success in the part of the work it has undertaken.

MISS KATE STUART, THE HEROINE OF CAPE FEAR.

Our readers will remember the romantic adventure, in which the young lady whose name heads this article, figured so admirably, mentioned in the papers several weeks since. The following in regard to her, which we extract from the letter of a correspondent at Smithville, will, no doubt, prove interesting to many of our readers:

"Miss Stuart is scarcely of medium height; has blue eyes; broad, high forehead; very fair complexion; a pleasant mouth; dark brown hair, worn in loose, heavy curls, reaching nearly to her waist. She is sociable and pleasant, and in conversation very entertaining; has a well stored mind, and is a graduate of one of the female Colleges of the Old North State.

She is fond of out door exercise; is a great croquet player, and, like most Southern ladies, a fearless rider. In all her rides and walks, she is accompanied by a large black Newfoundland dog, known to all the village children as "Jeff."

Miss Stuart is especially loved by the poor of the neighborhood, who regard her as their best friend, and her name and memory will ever be cherished by the soldiers who were stationed at Smithville during the war.

She has been presented by Capt. Hunter with a handsome watch and chain; but the people of the State ought, likewise, to present her with some testimonial of appreciation of her many noble acts."

A Fine Piece of Mechanism.—Near the corner of Morgan and Blount streets, at the establishment of Mr. N. S. Harp, may be seen as fine a specimen of mechanical work, in the shape of a vehicle, as can be turned out of any establishment in the country North or South. It is a buggy, just finished off for J. J. Mott, Esq., President of the eastern division of the Western N. C. Railroad, who has the good taste and good sense to patronize State manufactures, when, as in this case, he can be as well suited as he could have been by going abroad.

This buggy, for workmanship, lightness, symmetry, fineness of finish and general appearance, cannot be excelled anywhere, and the price is as reasonable as the prices of any other establishment.

Persons in want of vehicles of any kind should try our home establishments before sending their money abroad for articles they may need. Our mechanics in the various branches are capable of meeting our home demands, and it would be a mutual advantage to buyer and seller, should our people get more in the habit of encouraging their own people.

That Credit.—It seems that we have got ourself into hot water with the Newbern papers, without exactly knowing how. A few days ago, we noticed a paragraph in the *Times* stating we had credited something to the *Journal of Commerce* that was due to the *Times*, and thinking, perhaps, it was some little news item or other, we, in an off hand careless way, made the correction. We had no intention of doing injustice to the *Journal of Commerce*, and, not having the papers at hand, do not recollect now, what the article alluded to, was; or rather, the tenor of the article. It is very certain we had no intention of doing injustice to any of the persons recently under examination in Newbern, or to credit any of the scurrilous attacks of the *Times* on them to the *Journal of Commerce*.

The following statement of the Assets and Liabilities of the Mechanics' Building and Loan Association, of this City, shows that it is doing a safe and profitable business.

WM. SIMPSON, *Sec'y.*

Turtle Soup.—Pepper, having received the necessary cetaceous, amphibious, marine quadruped, yclept a sea turtle, desires us to say that he will have him artistically converted into that highly popular dish, known and relished by all epicures, under the title of turtle soup, which will be served up at his restaurant on Fayetteville Street, to-day, Saturday, at 11 o'clock, A. M., whence families can be supplied by leaving their orders in time.

"The man that don't love turtle-soup,
Must surely be a simcum-poop."

Good News for the Afflicted.—Those who from advanced age or other causes have been prevented from using their eyes with ease and comfort, should embrace the earliest opportunity of calling upon Dr. M. Bernhardt, whose office at the Yarborough House has been visited by the *élite* of our city during his stay. Dr. Bernhardt's reputation as a first class optician is second to none in this country or in Europe, while his elegant spectacles has done more to please and benefit the community than most people are aware of. Unlike the ordinary style of glasses, his Australian crystals and Brazilian pebble tend to soothe and tranquilize the eye, and a person very soon finds he can use them for hours without the slightest fatigue whatever. Those who have the pleasure of using them, assert they are infinitely superior to anything of the kind they have ever met with, and speak extravagantly in their praise.

The Louisiana Equitable Life Insurance Company of New Orleans.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

Joseph Ellison, President, New Orleans, Louisiana.

D. H. Hill, Agent, Charlotte, N. C.

The Milton *Chronicle* says: "Tobacco is coming into our market briskly, being delivery of purchased crops."

We learn from the same source that the Mayor of Milton, Aug. Anderson, is about to appear in a new *role*, that of Agent for Hansey's Variety Troop," a rare combination of talent, and "enthusiastically patronized."

By the way, Mr. Chronicle, we collapse in regard to crediting that antidote for drunkenness to the wrong source—we didn't think any Doctor would have the temerity to try such an antidote on Milton, hence the error.

Fine Turnout.—The finest turnout we have seen for sometime, was that of Blair's triple pair team, which appeared in front of the Yarborough, yesterday, to convey some guests to make a call of ceremony on one of our happy, newly wedded county men.—The team is lead by a well matched pair of deep sorrels, followed by his showy pair of bays, and these followed by the fine pair of black bob-tails at the wheels, making altogether a turn out not easily rivaled.

NEW YORK.

New York, Sept. 10.—An engine on the Erie Railroad exploded to-day near Port Jarvis, killing four persons.

FOREIGN.

Havana, Sept. 10.—Lescal has left the city for Sagua with a battalion of volunteers 450 strong.

The Spaniards put the insurgents to flight in Sevilla Bay. Thirty rebels were killed in a skirmish near Manzas.

Madrid, Sept. 10.—There have been slight disturbances here owing to the removal of volunteers from posts occupied since the revolution; several were wounded.

London, Sept. 10.—The Bishop of Bath and Wells has resigned.

IOWA.

Keokuk, Sept. 10.—The Commercial Convention has adjourned; among the resolutions is one that demands a full share of the diplomatic appointments and asks aid from the cities and towns on the Mississippi, and its tributaries for the establishment of an emigrant depot at New Orleans, and asking for a subsidy for steamships from New Orleans to foreign ports; and in favor of the removal of the National Capitol.

FROM BOSTON.

Boston, Sept 10.—The storm extended throughout New England; many lives and vessels were lost. Every description of vessels dragged their anchors and drifted helplessly. The schooner Ellen Eliza was wrecked off Peak's Island, eleven persons lost. The Mud Digger, in Portland was sunk, but the crew were saved. The fog bell at Portland Head Light, was blown over the banks into the sea.

Liverpool, Sept. 10.—Cotton dull at former quotations.

Friday Midnight Dispatches.

FROM WASHINGTON.

Washington, Sept. 10.—Some official letters, via Key West, say that Quesada sent 500 men on a reconnoissance towards Los Tunos, the party were attacked but succeeded in reaching the main body with a loss of 35 killed and wounded.

On the 15th, Valmaseda attacked the Cuban position, first with artillery, making little impression, then an infantry charge followed; the Cubans reserved their fire for short range, and compelled the Spaniards to seek shelter behind their artillery. After three hours fighting, Valmaseda attacked the position with his entire force, reported by deserters as being more than 4 000, of which one-half were regulars.

The Cuban force was about 6 000, of whom about 4 000 were well armed. The contest lasted about five hours, when Valmaseda retreated to Los Tunos. The Cuban loss was 72 killed, including several officers, and 107 wounded severely and 150 slightly, 67 missing.

Two hundred on the Spanish dead and wounded were left on the field.

The Cubans captured 270 prisoners and were joined by 400 deserters. The deserters report that Valmaseda had all his available force in this engagement, with 32 pieces of artillery, some of it heavy and two regiments of cavalry.

The Cubans had 13 pieces of small calibre, but no effectively equipped cavalry. This battle is the first one of importance since the commencement of the rebellion and causes much rejoicing in the Cuban army.

A letter from Havana states that the Government exercises a most rigid surveillance over the telegraph and mails.

Gen. Lesca has been here some time, and is in the interest of the volunteers.

Out-rages increase fearfully and are of a character too revolting to be believed.

The Commissioners on the part of Great Britain and the United States have adjusted the claims arising from the Oregon treaty. The Hudson Bay Company get $450,000 against a claim of over $4,000,000; the Puget Sound Company gets $200,000 against a claim of over $1,-000,000.

These Companies are required to release to the United States all possessory rights belonging to them in Oregon, and Washington Territory. By this decision the very long controversy, which on several occasions threatened to disturb amicable relations between the two countries is closed. The proceedings cover 3,500 pages of printed matter.

Sherman assumes the Secretaryship of War to-morrow.

Revenue to-day nearly 1,000,000.

FOREIGN.

Constantinople, Sept. 10.—The frontier question between Turkey and Persia has been settled.

The Viceroy of Egypt submits to the demands of the Sultan in all points except that of the budget. The Great Powers will use all efforts to prevent the sultan from pushing matters to extremes.

London, Sept. 10.—The "Morning Post" says that the Pope is about making great efforts to convert American negroes; two hundred of them are now studying for the priesthood.

Paris, Sept. 10.—Official papers announce the Empress's health as satisfactory. The Empress will probably soon resume her Eastern journey.

Madrid, Sept 10.—The disturbances have been quelled and the city and country are tranquil.

The proposition continuing Serrano's regency for three years, is gaining ground.

TENNESSEE.

Memphis, Sept. 10.—A planter named Burke, was shot dead to-day while sitting with his family. The assassin is unknown.

FROM WILMINGTON.

Wilmington, Sept. 10.—The steamer Pioneer was gotten off the beach this morning at 10 o'clock and is now in port without a leak and perfectly dry.

Weather clear. Wind S. E. Thermometer 75.

MASSACHUSETTS

Boston, Sept. 10.—It is reported that the Paying Teller of the Ninth National Bank, is a defaulter to the amount of $1,000,000.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Address, T. H. BRIGGS,

LIFE INSURANCE.

THE LEADING COMPANY IN NORTH CAROLINA IS

THE ÆTNA LIFE,

OF HARTFORD.

JULY 1ST, 1869.

Amount of Assets $12,000,000.00.

DIVISIBLE SURPLUS $2,675,999.48,

AND CONSTANTLY INCREASING.

ALL THE SURPLUS OF THE COMPANY DIVIDED AMONG THE ASSURED.

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States,

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

No. 15,273	$ 5,000

" 22,304	15,00

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker	$16,54
Equitable	17,44
North America	21,18
Brooklyn	21,09
Universal	27,94
John Hancock	28,27
The National	63,49
The Ætna	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested net assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THE WIFE MARKET IN RUSSIA.

A French writer, whose name I forget, has truly said that "the Russians are a nation of polite savages," a remark that is not very apt, but it helps towards a proper understanding of the social condition of the people. The rich are very rich, the poor are very poor. The nobles are courtly, polite and as refined in manners as those of the same class in Germany; but the serfs, or those who belonged to the nobles with the soil, before the emancipation, are rude and not half civilized.

Almost as soon as a girl is born, in the better ranks of society, her parents begin to prepare the dowry she must have when she goes to her husband. For this is indispensable in the eyes of any Russian young gentleman who proposes to be married. She must furnish everything for an outfit in life, even to a dozen new shirts for her coming husband.

I have heard of a lady of rank and wealth who had prepared a costly dowry of silks, linen, jewels, plate, &c., for her beloved daughter, who died as she came to be twenty years old. The mother resolved to endow six girls with these riches, and actually advertised for them. A host of applicants came, and she selected six.—None of them had lovers. But now they had a respectable dowry secured, each girl was speedily engaged, and with the husband took the dowry, and paid the rich lady by promising to pray for the repose of her daughter's soul.

In no country is this arrangement of terms carried on with more caution and completeness than in Russia. The young man goes to the house of his proposed bride, and counts over the dresses and examines the furniture, and sees to the whole with his own eyes, before he commits himself to the irrevocable bargain. In high life such things are conducted with more apparent delicacy, the business being in the hands of a broker or notary. The trousseau is exposed in public before the wedding day.

At Whitsunday, there is a curious custom, which is gradually giving way with the advance of civilization. The young people of a neighborhood come together, and the girls all stand in a row, like so many statues, draped indeed, and not only draped, but dressed in their best and prettiest too; for the young ladies, and the older ones also, in this country use cosmetics freely, and a box of lady's paint is a very common present for a young man to make to the girl he likes. Behind the row of girls are their mothers; the young men having made known their choice, the terms are settled between the parents of the parties.

The ladies of Russia are very anxious to marry, because they have no liberty before marriage. They are kept constantly under the maternal eye until they are given up to the husband, and then they take their own course, which is a round of gayety and dissipation, only regulated by their means of indulgence. The Greek Church like the Roman, permits of no divorce; but the Emperor, like the Pope, can grant special dispensations. The Greek priest must marry once, and if his wife dies he cannot marry again. No one in Russia can be married more than three times.

DRINKING WHILE EATING.

A recent contributor to the *Herald of Health* considers the practice of drinking during meals an injurious one, and argues his cause thus:

Whoever, contrary to his usual custom, will turn down his glass at the beginning of a meal, and not make use of it till the close, may perceive that a great many consequences flow from so simple an action.—In the first place, the only aid to mastication and deglutition, apart from the teeth and tongue, will be the saliva, of which, from long disuse, there probably will not be the desired abundance. The time occupied in disposing of a mouthful of food will thus be prolonged, and the character of the food make a greater impression on the palate.

The stomach will not be treated to a cataract of half-drowned morsels, but at proper intervals to well-prepared material for digestion. There will be no haste, no bolting; the tendency to stuff and overload the stomach will be checked or fairly overcome—at least there will be leisure to consider whether one is eating too much. It is needless to add that these changes would be in the interest of good breeding at the table, there being few things more repulsive than the sight of a person who darts at his food, gulps it down in an instant, and, before it is fairly deposited in his mouth, has caught up more with which to pursue it.

Other difficulties than those of Southern reconstruction are causing Cabinet complications. Butler is a candidate for the United States Senate in Massachusetts against Henry Wilson. Boutwell, Horace Sumner favor Wilson. Wilson and Sumner have written letters demanding the resignation of Boutwell and Hoar in the Cabinet, and that the President should yield to their demand and carry out the most Radical policy in Virginia, Mississippi and Texas.—Leading Republicans, with at least two members of the Cabinet, advise a conciliatory course, and assent that any other policy would be the destruction of the Republican party, not only in the South, but throughout the whole country. When President Grant left here, he had concluded to follow the advice of the last named party, and it was understood that he would throw Massachusetts overboard, and leave Mr. Wilson to take care of himself. In proof of this the fact that Santer's interview with the President in New York was perfectly satisfactory, while Stokes's interview with Grant in this city was very unsatisfactory. Stokes now says the government is going to the devil.—*Correspondence of the Bulletin.*

Koskoo!

THE GREAT REPUTATION
Which KOSKOO has attained in all parts of the Country
AS A GREAT AND GOOD MEDICINE,
has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.
THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER it HAS NO EQUAL,
BEING POSITIVELY THE
Most Powerful Vegetable Alterative
YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.
The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or ordinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.
Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.
When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!
AS A
LIVER INVIGORATOR!
STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a rising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!
Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SPEEDILY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.
Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.
When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!
MEETS WITH GREAT SUCCESS IN THE CURE OF
Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confirmed ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.
The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.
Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
